MARYVILLE, MISSOURI, MONDAY, JUNE 30, 1913.

NO. 23.

8 TO 9 BUSY HOURS

PHONE CALLS ARE GREATEST IN THE MORNING.

919 PHONES ARE LISTED

Two Hundred Less Phones in Use Now Than Before Consolidation—Directories This Week.

A peg count of the number of calls on the new telephone switch board for the last four days shows a total of 18,995 or a daily average of 4,749. This includes Sunday which brings the number down, for only about half as many calls are made Sunday as during the week days. The count also shows the busiest hour of the day to be between 8 and 9 in the morning. The fewest number of calls is made between 1 and 4 o'clock in the morning.

Manager Todd had the count begun last Thursday after all the phones had been put on the new board. The daily count since then has been: Thursday, 4,832; Friday 5,144; Saturday, 5,721; Sunday, 2,398. The count for the 8 to 9 hour shows: Thursday, 495; Friday, 533; Saturday, 516; Sunday, 203. The busiest hour Sunday, however, was from 7 to 8 when there were 221 calls. The number of calls during each hour from 1 to 4 in the morning is practically the same except for Sunday. On the other days there were from 0 to 1 call each hour, but on Sunday the count shows 1 call between 1 and 2 o'clock, 7 between 2 and 3 o'clock, 5 between 3 and 4 o'clock.

The purpose of the count is to find out the busiest time of the day in order that the schedule of work for operators may be rearranged to the best advantage. At present there are five operators beside the chief operator on the local board in the day time. After 10 o'clock at night there is one operator on the local board and one on the toll board until 5 o'clock in the morning. One more comes on the local board at that time, and by 7:30 the five day operators are at work.

Manager Todd said this morning that he hoped to have the new directories out this week. There are 919 phones listed in the new directory. This is about 200 less than when both systems were running, but the difference is accounted for by doing away with one of the two phones formerly installed in each of the business houses and offices.

PRODUCE FERTILE EGGS.

Every Five Eggs Out of a Hundred Are Thrown Away Because of Chicks Developing.

H. L. Kempster of the Missouri agricultural experiment station writes as follows:

Out of every hundred eggs that are sent to the market five are thrown away, because of chicks developing. This means a loss to Missouri farmers annually of over one million dollars. This loss can be prevented by the production of infertile eggs.

A fertile egg is one which will develop a chick. It is fertilized by the presence of male birds in the flock. An egg which is fertilized will develop a chick in any temperature above 72 degrees Fahrenheit. Three days at a temperature of 84 to 92 degrees is equal to one day at 103 degrees. One day at a temperature of 103 degrees to 110 degrees will produce an embryo as far developed as three days at a temperature of 103 degrees. In hot weather it is almost impossible to keep eggs cool enough to prevent chick development. The best way is to produce infertile eggs. This can be done by removing the male bird from the flock. Hens will lay as well or better with no male bird present. Sell off the males and produce infertile eggs.

1. They will not develop germs;
2. Will not hatch;
3. Are easily preserved;
4. Are slow to decay;
5. Cost less because you don't have to feed the male;
6. Withstand heat;
7. Stand shipment better.

Tarkio People Here.

Misses Hazel, Ruth and Margery Trout and Ralph Marshall and Audrey Curfman, all of Tarkio, drove to Maryville Sunday in the Curfman car to spend the day with relatives. Miss Margery Trout remained for a week's visit with her cousin, Mary Margaret Richey.

WORSE THAN ANY WOUND.

Abraham Walk of This City Was More Concerned About A Quart Cup of Butter.

Abraham Walk of this city, who left Friday night for Gettysburg, Pa., to attend the celebration there of the battle of Gettysburg, received a write-up in Sunday's Kansas City Star. The article is as follows:

Abraham Walk of Maryville was wounded twice in the battle of Gettysburg—once in the arm and once in a quart cup of butter. The latter wound concerned him most for the food supply at that particular time was very low.

Mr. Walk, who was a member of the Eleventh United States infantry, had made a forced march of eighteen miles, during which he took the opportunity of foraging. He had his haversack bulging with home-made bread and meat and pickles, and a supply of butter in his quart cup, covered with a towel and slung over his shoulder with a string.

When his command was deployed in the skirmish line stretched across a wheat field, the butter got hot and melted in the July sun, and he kept his attention on the butter in order to avoid spilling it. But his care was of no avail; just before his command was replaced by fresh troops, a rebel bullet came along and struck the cup, scattering the butter all over him, so that he went dripping from the field.

The wound in the arm was one of the fortunes of war and to be expected, but the loss of the butter was a real calamity, he says.

CONCERT WAS WELL ATTENDED.

The First Sunday Afternoon Band Concert at Normal Park Was a Great Success.

The band concert at the Normal park Sunday afternoon was a great success. A fitting program of sacred and classical music, well played, pleased the large number of people who attended the concert. Prof. Maulding, director of the band, was very well satisfied with the success of Sunday's concert. He says that the series will be continued as long as the people take an interest in them and attend.

The Sunday concerts, in addition to the weekly Thursday evening concerts, will give Maryville plenty of good music this summer.

A collection was taken among the audience yesterday which netted \$17.86.

ARE CUTTING WHEAT.

Farmers Were Even Busier On Sunday With Their Wheat—Bigger Average and Yield Than Last Year.

Many of the farmers over the county were busy Sunday cutting wheat, as they did not want to take any chances with rain. Just a small part of the wheat over the county has been cut.

The wheat crop in the county this year promises to be the biggest so far. The acreage is much larger than last year and a much bigger yield is promised. Many of the farmers have never seen a better and bigger crop than the one this year.

Visited Near Bolekow.

Miss Mary A. McCall, Miss Nelle Alkire and Mr. Joseph Saunders spent the day Sunday near Bolekow with Mr. and Mrs. R. L. Davis and family.

SENATOR HOKE SMITH.

He Would Have Wilson Given Arbitrary Powers In Certain Tariff Cases.

Copyright by American Press Association.

In discussing the proposed countervailing duty on wheat and flour, which the committee recommended, Senator Hoke Smith of Georgia urgently proposed the adoption of an amendment which would give the president authority to enforce countervailing tariff rates on all commodities of commerce against any nation refusing to deal with the United States on a reciprocal tariff basis—in other words, putting a powerful "big stick" in the hands of the federal executive.

SIX BABY CLASSES

A FIVE-DOLLAR FIRST PRIZE FOR BOYS AND FOR GIRLS.

SIX MONTHS THE LIMIT

And They Can't Be Over 3½ Years of Age—Weights and Measures of the Perfect Babies.

The Mothers' Circle committee in charge of the better babies contest for the Fourth of July consulted with the Maryville physicians Monday morning and drew up the score card that will be used by the judges in the contest.

The judging of the babies will take place in the morning of July 4th in the parlors of the First Christian church, which will give the judges time to compare scores and decide upon the winners by the time the presentation is made, which will take place at 4 o'clock in the afternoon in the band stand in the court house yard. The babies presented for judgment will be exhibited there and all other babies presented for judging.

The prize has been raised to \$50, so that each baby winning in each class will receive a first prize of \$5.

The Mothers' Circle wants it strictly understood that no child will be allowed to enter the contest who has been exposed to any disease within the past six weeks. Every child on exhibition will be protected from too much display of admiration by those who come to see them and no kissing will be allowed.

The age limit of the babies in the contest is from 6 months to 3½ years. There will be three classes for the girls and three for the boys, and they will range according to ages.

The physicians found it necessary to establish a standard for judging the children and then compare each entry with what is known as a 100 per cent or perfect product. The normal or perfect child presents the following points, counting that of a girl baby one pound less:

Average weight, height and circumference of head and chest of boys.

At birth—Weight 7½ pounds, height 20½ inches, chest 13¼ inches, head 14 inches.

On year—Weight 21 pounds height 29 inches, chest 18 inches, head 18 inches.

Two years—Weight 26½ pounds, height 32½ inches, chest 19 inches, head 19 inches.

Three years—Weight 31 pounds, height 35 inches, chest 20 inches, head 19½ inches.

The committee wishes to impress upon the mind of every mother that exhibits her baby that the matter of dress will not be considered at all, so that she will not spend needless time in preparing him for the contest. Dress will not count at all. Each child will be undressed and measured to see how nearly he comes up to the standard set by the Maryville physicians.

Only Nodaway county babies will be admitted for this first contest in the campaign for better babies in this county that is being inaugurated by the Mothers' Circle.

A Maryville mother said Monday morning that when she first read of the baby contest on the Fourth she thought of course it would be a "pretty baby contest," as is usually the case in baby shows, and she knew that her baby boy could not hope to win the prize along that line, but when she found that it was for a better purpose and that it was to find the perfect baby physically in Nodaway county she determined to enter her baby to discover wherein he is deficient and by that contest she wishes to learn what to do for him to make him a stronger and better child. This is the right view of the matter.

Much interest is being taken in the contest, and it is evident that the judges will have their hands full on the morning of the Fourth in judging the babies that will be presented. All of the physicians in the county will be invited by the Mothers' Circle to be present at the contest and assist in the work.

The application blanks are now at M. A. Turner's store where all who wish may apply for them, or can give their application over the phone or by mail to Mrs. J. W. Ray, chairman of the committee.

The score card is as follows:

Name of child.....
Name of parents.....
Father's nationality.....
Mother's nationality.....
Coloring of child—Blonde or brunette.....
Number of child in order of birth.....
Age.....
Weight at birth.....
Condition at birth.....
Artificially or breast fed.....
Number of hours sleep indoors or out.....
Height.....
Weight.....
Circumference of head.....
Circumference of chest.....
Circumference of abdomen.....
Symmetry.....
Quality of skin and fat.....
Quality of muscles, hand grasp, rising, sitting, poise, walking, running.....
Bones of skull, spine, chest, limbs and feet.....
Length of head, width and circumference.....
Pupillary distance and shape of eyes.....
Shape, size and position of ears.....
Shape and size of lips.....
Shape and size of forehead.....
Shape and potency of nose.....
Shape and condition of jaw, hard palate and tonsils.....
Number, shape, size and condition of teeth.....
Psychological.
Disposition.....
Energy.....
Facial and ocular expression.....
Attention.....
The following are the babies entered for the contest up to Monday noon:
Fred Godlet Olney, son of Mr. and Mrs. F. W. Olney.
Mary Helen Jackson, daughter of Mr. and Mrs. Joseph Jackson, Jr.
Mildred Clara Hotchkiss, daughter of Mr. and Mrs. D. E. Hotchkiss.
Beverly Alice Martin, daughter of Dr. and Mrs. Vilas Martin.
Bailey and Virginia Protzman, son and daughter of Mr. and Mrs. Ray Protzman.
Peter Dietz, Jr., son of Mr. and Mrs. Peter Dietz.
Twins.
Marjorie and Madget Peniston, twin daughters of Mr. and Mrs. T. J. Peniston.
Clinton Parker, Jr., and Mildred E. Davis, twins of Mr. and Mrs. Clinton Davis.

DEATH BY HANGING

ILL HEALTH CAUSED MRS. JENNIE ATKINS TO COMMIT SUICIDE.

FOUND SUNDAY MORNING

Funeral Services Were Held Monday Morning Near Hopkins—Husband and Two Children Survive.

Mrs. Jennie Atkins, wife of Charles Atkins, a farmer living five miles north of Hopkins, committed suicide Saturday night by hanging. The cause of the rash deed was ill health.

Mr. Atkins was in Hopkins Saturday afternoon to do the necessary buying, leaving his wife seemingly in the best of spirits. But on his return to his home, about sundown, his wife was nowhere to be found. The 5-month-old babe was asleep on a cot with the little 2-year-old child near. On the table lay a note to the husband saying that the mother, who feared that her poor health was a detriment to their success in life, had decided to commit suicide.

Relatives and friends were at once notified and a search was instituted, but not until nearly Sunday morning was the body found, hanging to a tree some distance from the house.

Mrs. Atkins was 34 years old and was the mother of five children, three of which have preceded her. The loss of her children caused temporary insanity at different times, especially the death of the last one, a little boy, who died of a severe case of scarlet fever.

Mrs. Atkins, whose maiden name was Jennie Goff, was born near Bedford, Ia., and was married to Charles Atkins about twelve years ago. Her parents have been dead for some time. Beside her husband, she is survived by two children and one brother, Frank Goff of Albany.

The funeral services were held Monday morning at 10 o'clock at Morning Side church, near Hopkins, and burial also took place in the church cemetery.

500 lbs. Bran	\$ 5.00
500 lbs. White Shorts	6.00
500 lbs. Oil Meal	6.00
500 lbs. Cotton Seed Cake	7.00
500 lbs. Saffra 60 per cent	7.00
Digestive Tankage	11.00
500 lbs. Alfalfa	6.00
500 lbs. Alfalfa Meal	6.00

I can carry a good supply of Hay and Straw of all kinds which we can deliver at all kinds of rates, and our feed lots at the lowest.

When you want Hen or Chick Feeds we certainly have got them.

Mixed Hen Feed, 100 lbs.	\$1.75
Mixed Chick Feed, 100 lbs.	\$2.00
Mixed Chick Feed, 100 lbs.	\$1.75
Mixed Chick Feed, 100 lbs.	\$2.00

Plenty of Meat Scraps, Blood Meal, Cat Meal, Oyster Shell, Mica Grit, Syssy Grit, Pearl Grit, 30-40-60-80-100 Mesh, and 100-200-300-400-600-800-1000 Mesh.

We also carry a good supply of Self-Feeds in fact everything for the poultry yard.

These prices are strictly cash; if you credit is good and you wish to pay on account, we will give you 10 per cent to these prices.

INSURANCE ON CHILD'S LIFE

Police Find Another Probable Motive for Utah Murder.

Salt Lake, June 30.—That Frances Williams or Ekman, the twelve-year-old girl found dead in a trunk at Ogden, was murdered by her mother, Mrs. Augustus Ekman, is the conclusion of Salt Lake police as the result of the unraveling of a tangled skein of evidence.

A post mortem over the body of the child, held here, disclosed the fact that she had not been outraged before being put to death. The weight of evidence and the mother's own story indicate that she chloroformed Frances to prevent C. L. Anderson, her former husband, learning that she had an illegitimate child. The fact that the girl's life was insured for \$150 also may have had an influence, say the police.

EXTEND TIME ON SUGAR

Owen Believes Measure Will Pass Before End of September.

Washington, June 30.—Postponement of the date on which the new sugar tariff shall go into effect until March 1, 1914, was agreed upon by majority members of the senate finance committee.

In advancing the date when the proposed rate of a cent a pound in sugar shall be applied, the committee did not amend the schedule to affect the provision that sugar shall go on the free list May 1, 1916.

The committee also adopted an amendment which would put a stamp tax on all cotton sold for future delivery, declined to reconsider its action in repealing the act of 1899, which released sweet wine manufacturers from payment of the full internal revenue duty on brandies used in fortifying wines, and adjusted several rates on articles referred back by the Democratic caucus.

Ten Die During Day.

Chicago, June 30.—The fifth day of unmitigated heat brought the death toll from heat for this hot spell here to above forty. Ten deaths during the day were reported by the police and there were hundreds of prostrations, taxing the capacity of public and private hospitals. Four drownings were reported from Hammond, Ind., as an indirect result of the heat. Two men lost their lives rowing on Cedar lake and two at Flint lake.

First of the Month Sale High Quality Groceries.

An opportune time to begin saving money on table expenses.

VETS IN BLUE AND GRAY MEET AGAIN

Soldiers From North and South
Pouring Into Gettysburg.

ARRIVE BY SPECIAL TRAIN.

Thousands Walk From Station in the
Blazing Heat—Many Succumb by
Wayside—"It's Hot, but Not So Bad
as Fifty Years Ago," Says One.

Gettysburg, Pa., June 30.—Gettysburg stepped fifty years backward to-day into the halo of history and looked again upon an army of blue and an army of gray, meeting at its doorstep to join in the semi-centennial celebration of the greatest battle of the war between the states, and to show the world that scars are not so deep as the feeling of American brotherhood. From early morning the veterans in blue and gray trooped into the little town which has slept so peacefully among its hills since Lee and Meade turned their legions southward so long ago.

More than thirty special trains came into the village during the day and thousands of veterans who tramped up from the Shenandoah on their last visit rode in the luxury of soft-backed day coaches from Harrisburg, Baltimore and Washington.

Thousands Walk.

From the station of the two railroads that come into the village is a good long mile to the camp of 5,000 tents where the veterans are housed. Many of them made the trip by automobile or by carriage or in the friendly shelter of a "seeing" Gettysburg car, but thousands shouldered their suitcases and walked. The sun was scorching hot under a cloudless sky and many succumbed before they found their tents. There was no complaining, however, and the veterans seemed ashamed to acknowledge that a thing like heat could stop them.

"It's hot," said one old soldier, "but it isn't as hot as it was fifty years ago." Although the regular army and the Gettysburg commission of the state could not cope with the heat, every possible arrangement for the comfort of the united armies has been made. The camp of brown army tents is under the direction of officers of the regular army. The streets of Gettysburg are under the grim scrutiny of the Pennsylvania constabulary, and for the care of the sick the army, the state and the Red Cross have all made extensive preparations.

Wilson's Stay Short.

News that President Wilson is coming to make a speech July 4 caused a stir.

J. M. Schoenmaker, chairman of the Gettysburg commission, telegraphed to the president, informing him that the commission would like him to get to Gettysburg at 11 o'clock, July 4. The president will stay here about two hours.

The first serious accident of the celebration came when two trolley cars on the Gettysburg Railway company's line, which runs over the battlefield, met in a head-on collision near the Devil's Den, one of the historic spots. Six passengers were slightly injured, but none seriously.

There were many heat prostrations during the day, but most of the sufferers revived under hospital treatment. Augustus D. Brown of Livermore Falls, Me., was the first veteran to die on the field. He was taken suddenly ill and died just as an army surgeon reached his side. The heat probably hastened his death.

General Hunter Liggett of Washington is commandant of the camp. Three hundred and fifty Philadelphia Boy Scouts are scattered about the camp at various stations, where they will assist the veterans in any manner possible. Fourteen Red Cross stations were established on the battlefield to serve as rest stations and temporary hospitals for the veterans.

SEES MONEY BILL A LAW

New Tariff Will Not Go Into Effect Until March 1.

Washington, June 30.—Senator Owen, chairman of the senate banking and currency committee, issued a statement explaining the terms of the administration currency bill, which he believes will be enacted into law before the end of September. The senator commented upon the probable effectiveness of the measure in improving financial conditions, and said the chief end in view was to make bank resources more mobile and to provide an elastic currency for times of need.

New York Men Win Turner Events.
Denver, June 30.—Paul Krimmel, New York City Turnverein, and John F. Bissenger, Jr., of the same organization, were declared first and second champions of the thirty-first North American Bundes Turnfest, which closed here. These two participated in the ten events necessary for championship and captured the most points.

Loses Leg in Rescue of Aviator.
St. Louis, June 30.—William Blackley, aviator, and Henry Brooker, city councilman of St. Charles, Mo., fell 400 feet with a hydroaeroplane into the Missouri river, near St. Charles. In rescuing them George L. Holton lost his right leg when it was caught between a rope and the steering wheel of a motor boat.

Miss Lucile Holmes has returned from a month's visit in Kansas City with the family of Dan Holmes.

JACK JOHNSON SAILS WITH WHITE SPOUSE

Declares He Will Be in Chicago
When Appeal Case Comes Up.

Montreal, June 30.—Jack Johnson, the negro pugilist, accompanied by his white wife, Lucille Cameron Johnson, left for Havre on the Allan line steamer Corinthian. They boarded the steamer in the presence of Canadian immigration officers, who will watch Johnson's progress Europe-ward until he is beyond their jurisdiction.

Just before going on board, Johnson reiterated his declaration that he had no intention of forfeiting his bail bond in Chicago, and was going to Europe to recoup by boxing contests the losses he had sustained in his trials. He declared he would be in Chicago when his appeal from a white slave conviction is argued in November.

Johnson took with him two automobiles, a limousine and a touring car.

Relief From Heat Promised.

Washington, June 30.—An end is in sight to the hot wave that has held sway over the central states for several days. In its weekly bulletin, the weather bureau predicted that the extreme heat would be broken in the plains states tomorrow and that a cool wave then would move slowly eastward.

Woolstock Man Killed by Car.

Fort Dodge, Ia., June 30.—C. M. France of Woolstock, while driving his automobile, was struck by a south-bound interurban car at the Chicago Great Western crossing, and died shortly after being taken to a hospital.

Escaped Convicts Cannot Be Found. Leavenworth, Kan., June 30.—An all day search for Richard Osborne and Walter Layman, convicts, who made a daring escape from the federal prison, has not developed a trace of the men.

MESSIAH'S KINGDOM.

The Glorious Day of Divine Favor is Nearing.

The period in which sin is permitted has been a dark night to humanity, never to be forgotten; but the glorious day of righteousness and divine favor is soon to be ushered in by Messiah. He, as the SUN OF RIGHT EOUSNESS, shall arise and shine fully and clearly into and upon all, bringing healing and blessing, which will more than counterbalance the dreadful night of weeping, sighing, pain, sickness and death, in which the groaning creation has been so long. "Weeping may endure for a night, but joy cometh in the MORNING."

The Inman Farm Sold.

The farm of Mrs. J. C. Inman, located four miles east and one mile south of Maryville, was sold to U. I. Willson of South Buchanan street for \$100 per acre. The farm contains 157 acres. Mrs. Inman retains possession of the farm until March 1, 1914, when Mr. Willson will take possession. The farm was sold through the realty firm of Otis & Snodgrass.

Miss Ina Hollowell left Monday morning for a month's visit with relatives at Washington, Kan.

Mrs. O. A. Petty and Miss Ruby Clements of Arkoe spent Saturday in Maryville.

LEGEND OF GARDEN OF EDEN

Oriental Christians Believe Banana Tree Was the Source of Good and Evil.

There exists a legend relative to the Christian inhabitants of the east that they believe the banana to be the tree of the source of good and evil, in a bunch of the fruit of which the serpent that tempted Eve hid itself, and they add that when Adam and Eve became ashamed of their nakedness, they covered themselves with the leaves of this plant.

The origin of the banana is given as India, at the foot of the Himalayas, where it has been cultivated since remotest antiquity, says the National Geographic Magazine. Its origin in the new world is as doubtful as the origin of the American Indian. Natural to Asia and Africa, where more than twenty distinct species of the genus are known, it is said to have been brought first to America from Spain, early in the sixteenth century, and planted in the island of Santo Domingo, whence its spread was rapid through the surrounding islands and the main land. This has never been authentically established, however, and some authorities include the banana among the articles that formed the base of food supply of the Incas and the Aztecs before the arrival of the Spaniards.

Certain it is that throughout the whole meridional America there is a strong tradition that at least two species of the plantain were cultivated long before the coming of the Europeans. Furthermore, it is singular that in all the languages indigenous to the region where the banana appears, the plant has a special name, not proceeding from the conquerors, as was the case with the names of many other plants, animals and various articles introduced into America after its discovery.

Grown over the entire extent of the meridian of the earth, the fruit of the banana today forms in large part the principal food of a majority of the peoples living under the tropical zone.

Clothes Without Seams.

Bernard Shapiro, a ladies' tailor by trade, at Orange, N. J., claims that he has solved the problem of making a seamless form-fitting coat for women without cutting the cloth into pieces and sewing them up again. The amazing thing about Shapiro's invention is that it came to him in a dream. For fourteen years he had puzzled over the problem, how to cut a ladies' coat without seams. One night, as he was asleep, he saw himself making the coat, and when he awoke he was overjoyed to find that he remembered the secret.

Shapiro also dreamed that his invention brought him riches. To give this latter part of his dream chance to come true, he has applied for a patent.

Why She Was Silent.

Beesie—Did you scream when he tried to kiss you?
Jessie—No; there is a poor man across the street who is dreadfully sick.

Discontentment.
"She looks so discontented and dissatisfied."
"No wonder; she has a husband who gets her everything she wants!"

Miss Ruth Ridgeway of Blanchard la., was in Maryville Monday on her way to Lenox, Ia., to visit her aunt, Mrs. Phil Ridgeway.
